Submission To Be Reviewed

Title	Review of Home Alarm Systems against Intrusion in Nigeria
Journal Section	Control_Engineering
Abstract	This paper comes in response to the increasing rate of theft and kidnapping in some parts of Nigeria. It is expected that deploying a home security alarm system to fight the menace, especially with the development of technology, will make it easier to secure people's homes. Home alarm systems can control and monitor homes from intruders. The main aim of this paper is to review literature related to home security systems, their challenges, and the impact of deploying them in people's homes for security purposes.
