## Title and Abstract

**Title** Evaluating the Sanitary Hygiene of Drinking Water Depots in Pekanbaru City

**Abstract** **Judul : Evaluasi Higiene Sanitasi Depot Air Minum di Kota Pekanbaru**

**Latar belakang:** Depot Air minum isi ulang merupakan kebutuhan utama masyarakat sekarang ini dalam memenuhi kebutuhan air minum sehari-hari yang mudah didapatkan dengan harga yang murah. Hal ini menjadi pilihan masyarakat akan air minum dengan harga murah. Jika pengusaha depot air tidak memperhatikan higiene sanitasi maka akan membahayakan kesehatan konsumen. Tujuan penelitian untuk memecahkan permasalahan depot air minum dengan higiene sanitasinya di Desa Wonorejo yang merupakan wilayah kerja Puskesmas Garuda di Kota Pekanbaru, Riau, Indonesia.

**Metode:** Metode penelitian yang digunakan adalah deskriptif kualitatif dengan mengamati 6 depot air minum pada Desember 2021 dan mengisi laporan penilaian mandiri depot air minum yang dikeluarkan oleh Direktorat Penyehatan Lingkungan Republik Indonesia tahun 2017. Penilaian terdiri dari empat kategori (tempat, peralatan, penanganan, kualitas air).

**Hasil:** Hasil penelitian dari 4 kategori, dimana 2 kategori memenuhi persyaratan 100% (peralatan dan sumber air baku dan air minum) dan 2 kategori tidak memenuhi syarat (MS) bangunan 78,5% dan penanganan 43%. Bangunan yang tidak memenuhi syarat (TMS) adalah: tata letak pengolahan air minum, ventilasi, tempat sampah tertutup, dan fasilitas cuci tangan yang belum difasilitasi oleh pengusaha depo. Adapun syarat higiene pegawai yang tidak memenuhi syarat yaitu : pegawai tidak menggunakan pakaian khusus, dan tidak membersihkan tangan dengan sabun sebelum mengisi galon.

**Simpulan:** Kesimpulan evaluasi Depot Air Minum secara keseluruhan memenuhi syarat (MS) sebesar 80%. Diharapkan kepada pengusaha depot air minum isi ulang untuk memperbaiki aspek-aspek yang tidak memenuhi. Persyarata dan kepada Dinas Kesehatan Kota Pekanbaru untuk melakukan pembinaan dan monitoring secara berkala.

### ABSTRACT

**Background:** Refilled drinking water depots continue to develop to meet the community's needs for affordable, quality and safe drinking water. However, the sanitary hygiene of the refilled drinking water should be maintained, otherwise consumers' health will be at stake. This study was performed to address the problems of sanitation and hygiene at refilled drinking water depots in Pekanbaru City, Riau, Indonesia.

**Method:** In this descriptive qualitative study, six refilled drinking water depots participated as samples in December 2021. Depot owners answered the drinking water depot self-assessment report issued by the Directorate of Environmental Sanitation of the Republic of Indonesia in 2017 which consisted of four categories: place, equipment, handlers, water quality.

**Results:** Out of four categories, two categories met the requirements of 100% (equipment and water source), while two categories did not meet the requirements: (Comply/C) 78.5% related to the buildings and 43% for handlers. The criteria of buildings that did not meet the requirements were layout, ventilation, closed trash cans, and hand washing facilities. Whereas, the criteria of operators that failed to meet the requirements were operators not wearing work costume and they never washed their hands before performing their jobs.

**Conclusion:** In general, the drinking water depots have met the requirements (Comply/C) by 80%. Owners of the refilled drinking water depot s need to improve the assessment items that did not meet the requirements. In addition, the Health Office of Pekanbaru City should conduct regular coaching and monitoring.

### 1. Revisi

Bersama ini kami kembalikan artikel author untuk di revisi dikarenakan dari hasil pengecekan turnitin nilai similaritynya masih diatas standar lulus pada jurnal kami adalah 25%.

### 2. Mohon Mengisi Form Pernyataan Etik yang di buhuhi Materai 10 ribu dan Mengisi Form CTA (pengalihan hak Cipta)

bila sudah selesai mohon di kembalikan segera, terima kasih.

Kepada: JKLI UNDIP &lt;jkli@live.undip.ac.id&gt;

Yth Editor,

Bersama ini kami kirimkan ulang sebagai berikut:

1. Artikel yang sudah di perbaiki profreadingnya sehingga hasil turnitin 22% (terlampir artikel profreading word dan hasil self cek untuk turnitin)
2. Sudah mengisi form etik dan pernyataan CTA seperti terlampir

Mohon dibantu untuk proses berikutnya dan juga kami membutuhkn informasi sebagai berikut:

1. Bisakah kami mendapatkan Letter of Acceptance (LoA) untuk kebutuhan akademis.
2. Dan kapan rencananya artikel kami ini akan di publish?
3. Informasi untuk pembayaran bagaimana.

Terimakasih dan Salam,

Yth. Author

Untuk penerbitan LOA kami memang ada tahapan administrasi yang harus di penuhi. kemudian yang ingin kami sampaikan kembali adalah terkait pernyataan Etik yang telah author kirim ke kami.  
mohon maaf dari lampiran yg author kirim ke kami, dan dari pengamatan kami materai tersebut adalah hasil scan.

jadi yang kami kehendaki adalah author silahkan print form tersebut, kemudian silahkan di tempeli materi 10rb yang selanjutnya di bubuhi tanda tangan. jika sudah silahkan file yang sudah terisi materai dan tanda tangan di scan dan dikirimkan ke email kami.

scan pernyataan tersebut sebagai bukti ke kami, atas legalitas artikel yang author kirim ke kami. jadi mohon jika memang artikelnya ingin segera di publish mohon untuk bisa di perbaiki pernyataan etik tersebut.

Sebagai contoh, kami kirimkan para author yang telah mengirimkan pernyataan etik dengan benar ke jurnal kami

terima kasih
