#10007 Summary

SUMMARY REVIEW EDITING

Submission

Authors	Yuda Irawan, Muhandi Muhandi, Rian Ordila, Roni Diandra
Title	Automatic Floor Cleaning Robot Using Arduino and Ultrasonic Sensor
Original file	10007-34106-1-SM.DOCX 2020-10-11
Supp. files	None
Submitter	Yuda Irawan
Date submitted	October 11, 2020 - 10:47 PM
Section	Articles
Editor	BOUZID Mohamed Amine (Review)
Abstract Views	8300

tor Subject: [JRC] Editor Decision

202 Dear Authors,

0-

10- We have decided on your submission to the Journal of Robotics and Control (JRC),

15

08:5

4 Our decision is: Accepted with Mayor Revision

PM

The detail of the comment is as follow.

Comment of Editor:

>> The Title must fully describe the paper's content in short.

The Abstracts must contain at least 150 words up to 250 words, consist of 2-3 sentences as brief intro about the paper, 2-3 sentences to describe how the problem is solved, and 2-4 sentences showing the results of experiments/simulation, ended with 1-2 sentences as short main conclusions of the work.

The Introduction section must explain the background of the problem and the urgency of the study, which can be proved by providing some previous researches and works, and also how to solve the problem in brief. Also, the contribution and the importance of the research must be stated clearly.

The Method contains an explanation of the research method and the proposed method. This section can include research diagrams, system block diagrams, wiring diagrams and program flow diagrams.

The Results and Discussion section should provide a comparison to a similar method from previous works and researches.

The minimal References are 30 from an English Journal and using IEEE Style.

>> The Figure, Table and Equation are some of the most beneficial parts that will be seen first when reading a paper, hence it needs to be made easy to read and as best as possible.

The Image/Figure. It must be in PNG or JPG/JPEG format with 600-1200 dpi. Please don't crop, or use snipping and print-screens tools. Otherwise, the image resolution will be compromised.

The Tabel. Please use the Insert Table feature.

The Equation. Use the Insert Equation or Ms Equation. We suggest using 3 columns of the table to help, and then to make the equation on the middle of the column and the number of the equation on the right-side column.

All of Figure, Tabel, and Equation must be given by information, explanation and analysis, not only included without description.

>> Please use Grammarly to check your manuscript. The free Grammarly is enough for fixing some typo and grammar mistakes. The proofreading is recommended to increase the quality of the English language and writing.

>> The author must follow the template journal and the similarity must be under 20% or the manuscript will be rejected.

Comment of Reviewer 1:

>>

=====
=====

1. There is no acknowledgment on paper. Please add the acknowledgment
2. writing the caption table does not match the template. please check template
3. originality: 70%
contribution: 60%
novelty: 60%
please add more contribution and novelty on this topic
4. please check the comment and make improvements according to reviewer suggestions

=====
=====

Comment of Reviewer 2:

>>

=====
=====

- Make sure to use an "IMRAD CAR" structure of paper which consists of Introduction, Method, Results and Discussion, Conclusion, Acknowledgment, and References.
- Result and Discussion is not clear.
- The contents of the abstract contain the essence of each chapter, not just a written copy. Please make the paraphrase.

- There are many pictures that do not clear for reader. Please repair it. Ex. Fig. 1.
- It can also be written that schematic drawings are made using certain software because they may contain copyright.

- Contribution to science has not been stated in this paper.
- The use of ultrasonic sensors in this robot does not indicate novelty. It would be nice to be able to use a dust sensor.

Novelty and contributions are not visible as of this writing but have good potential if corrected.

=====
=====

Comment of Reviewer 3:

>>

-
-
1. Better description and explanation of results.
 2. The results and conclusion should be improved.
 3. The References should be updated (2017 to 2020).
 4. Many details are missing and others unclear.
 5. The conclusions in this manuscript are primitive. Write your conclusions.
 7. The manuscript is hard to be understood and words should be improved.
-
-

Comment of Reviewer 4:

>>

The paper makes a good effort and is suitable for publication

- 1-Novelty of work: In view of the large developments in the area of present work, Expand your work more.
 - 2-In abstract, the result of this work must be described briefly with data.
 - 3-In the Introduction part, the new features of the proposed method and the main advantages of the results over others should be clearly described.
 - 4-There are no citations for many sentences in this manuscript. Why? Please check.
 - 5-The order of citations isn't convincing.
 - 6-There are no citations for many sentences in this manuscript. Why? Please check.
 - 7-The order of citations isn't convincing.
-
-

Please, revise your manuscript based on the editor and reviewer suggestion, advice and comment. Then, send your revision manuscript using our system journal.

Thank you,

Best Regards,
BOUZID Mohamed Amine
JRC Editor.
