Please read this email carefully – all of the below is important.

Dear Refni Wahyuni,

your paper is now scheduled in iJIM Vol. 17 No. 03 (2023), to be published around 10.02.2023.

- Your final version is now being formatted – DO NOT UPLOAD OR SEND ANOTHER VERSION, it cannot be taken into account.
- You are receiving this email because you are the corresponding author (primary contact). However, the proof will be sent to the email address given in the paper.
- On or before 27.01.2023, you will receive a page proof from our copy-editing team – you have 2 days to reply. If you don't respond your paper will be published as sent to you in that proof email.
- Check your SPAM and watch out for this email. It will be sent to the email that you have given IN THE PAPER (and might be different from the one of this email)
- Proof email sender will be either revathy@online-journals.org or copyedit@online-journals.org. Please whitelist these addresses if you can
- NO MODIFICATIONS WILL BE POSSIBLE ANYMORE, ONCE YOUR PAPER IS PUBLISHED.
- Please CHECK CAREFULLY authors' names, affiliations, typos....
- Changes to the content are no longer possible, this would require a new review.

Watch out for the proof and check it carefully. As corresponding author, you are responsible for the correct spelling of your co-authors' names and their affiliations. It will be the last opportunity to make corrections.

Also, please use this opportunity to check the metadata in the journal system that you can find here: <https://online-journals.org/index.php/i-jim/authorDashboard/submission/35859/5#publication/contributors>

Check that all authors are there, correctly spelled, correct affiliations, sequence...

Thank you for working with us!
Sebastian Schreiter

Refni Wahyuni:

We have reached a decision regarding your submission to International Journal of Interactive Mobile Technologies (IJIM), "IOT-BASED PULSE OXIMETRY DESIGN AS EAR-LY DETECTION OF COVID-19 SYMPTOMS: IOT-BASED PULSE OXIMETRY DESIGN AS EAR-LY DETECTION OF COVID-19 SYMPTOMS".

Our decision is: Revisions Required

Enclosed are your reviews. If you should choose to revise your paper, please prepare a separate document describing how each of the reviewers' comments were responded to in your revision and submit through IJIM editorial system within 30 days.

Please upload your revision and summary of changes to IJIM editorial system at <http://online-journals.org/index.php/i-jim>

Dear reviewers,

Thank you for giving me the opportunity to submit a revised draft of my manuscript titled **IoT-Based Pulse Oximetry Design as Early Detection of Covid-19 Symptoms**. We appreciate the time and efforts that you have dedicated to providing your valuable feedback on our manuscript. We are grateful to the reviewers for their insightful comments on this manuscript. We have been able to incorporate changes to reflect most of the suggestions provided by the reviewers. We have highlighted the changes within the manuscript. Here is a point-by-point response to the reviewers' comments and concerns.

Response to reviewer A:

No	Comment	Response
1	Patient SOP 2 Monitoring Design (Check the Spelling and Proper acronym) - Page no 6	Thank you for pointing this out. We have revised SOP2 to SPO2 on page number 7
2	Comparative analysis with other pulse oximeter sensors will help the readers to understand the topic even more easier	Thank you for pointing this out. We have added testing and comparison analysis with other pulse oximeter sensors (Page number 10)
3	Authors are encouraged to include Science Citation Index (SCI) , Science Citation Index Expanded (SCIE) based references	Thank you for pointing this out. We have added citations from the Science Citation Index (SCI), Science Citation Index Expanded (SCIE) in the references section
4	The framework in this research consists of 7 stages which are described below (page no 5) all the stages included in this paper?	Thank you for pointing this out. 7 stages of research have been included in the implementation of research in this paper. Explanation is in the research method on pages number 5 and 6.
5	There are many Covid 19 symptoms. Only pulse oximeter is considered? justify the reason	Thank you for pointing this out. The reasons why only pulse oximeters are considered are stated on page number 2 paragraph 4.
6	Table 1. Sensor Comparison Test Results, Table 2. Results of Measurement of Oxygen Saturation (SPO2) Please follow the journal format	Thank you for pointing this out. We have corrected the table according to the journal format.
7	Other services like triggering message or location tracking of the patient may be considered for the research implementation	Thank you for pointing this out. We have added these suggestions to the conclusion on page 11.

Response to reviewer B:

No	Comment	Response
1	Authors must follow the format of the journal, body text, tables, figures of this paper are not arranged well and font types are mixed	Thank you for pointing this out. We have corrected the entire text in the paper following the journal format, body text, tables, images, and font types.
2	Some figures still use not international language.	Thank you for pointing this out. We have corrected the entire text in the paper following the journal format, body text, tables, images, and font types.
3	Authors should introduce the novelty clearly.	Thank you for pointing this out. We have included research updates from previous research on pages 4 and 5, in paragraph 5.
4	This paper should be improved in the method and analysis part so it explains and supports the novelty.	Thank you for pointing this out. We have updated the analysis of research results on pages 10 and 11.
