## Comments to the Author

### General comments:

- The article needs to be reformed in term of English writing. There are some type of grammatical and typos errors.
- Need to review and implement the mentioned amendments.
- The paraphrasing principles are not met.

### ABSTRACT

- In methodology, statistical methods should be mentioned.
- In the Keywords, delete the "smoking" word.

### INTRODUCTION

- Introduction is short and does not cover all content.
- This introduction could be bolstered by citing the recent literature in the field.
- Use the past verbs to write the purpose.

### MATERIAL AND METHODS

- In study parameters: Given the fact that for studying the parameters of the study from previous studies, mention of the source and citation is necessary.

### RESULTS

Results for the study are adequate and useful data are reported.

### DISCUSSION

- The discussion section repeats much of the results from the present study and requires significant revision.
- This manuscript would benefit from greater discussion of the current research.
- Write the discussion simple and compare with similar results.
